VOLUME 37.

FRIDAY, SEPTEMBER 8, 1939

NUMBER 24

Rain Storm Halts Harvesting

Rain which started just after dark Tuesday evening and continued until the middle of the afternoon on Wednesday, has put a stop to harvesting for the rest of the week, and has given the beet fields a much needed and greatly appreciated watering, which has been impossible by the usual methods of irrigation because of the scarcity of water.

Elevator men estimate that about 65 percent of the wheat has been threshed and delivered to date. Most of the unthreshed ridge, and while this grain fields are south of town toward will maintain a better average grade than what has already been delivered, it is not expected that the grade will be quite as high as some already delivered. The reason for this is that most of the remaining land is newer land, and this year in practically every instance the best grain has been harvested off the older land, the piece of land north of town producing the best samples of grain this year.

While the harvest is held up a few days, with the clear skies Thursday morning it is not likely that the wheat will be damaged at all, and everything else benefited greatly. The third cutting of alfalfa is coming on, and will grow rapidly now, pastures, which were very dry will be helped greatly by the storm, and the moisture on the summerfallow will soak down and make this land better for cropping for next year.

From appearances early Thursday morning, we escaped without frost, which is quite unexpected in view of the lateness of the season and the clear, skies that prevailed about 10 o'clock at night and everything being so wet. A good spell of weather now without frost will give garden a chance and late corn, cucumbers, squash etc. may now mature and make a crop. Every one is hoping so at least.

Municipal Meeting Held

The regular meeting of the Municipal Council was held on Tuesday at the office. The bills for the month were passed and ordered paid and the routine business taken care of.

The road building program was discussed and disposed of. About \$3,800 on the Stirling road and \$1,400 on the Welling road was paid for graveling while the crew was at work on Temple Hill, and the Secretary informs us that most of the money for road work for this year has been used up and that very little more work will be done this year in this immediate district at least. We feel that our local people are fully appreciative of the work accomplished, and that while some dreams of better roads may have to be abandoned for this year, the new road to Stirling and the re-graveling of the Raymond to Welling road are projects that nearly everyone will share in and are road improvements that certainly needed attending to. The Stirling road particularly will give these two towns all weather connection now, a thing that has been so badly needed since the advent and general use of the automobile. Congratulations, gentlemen on this work, and thanks to you and the Provincial government for the program of co-operation worked out and carried through on this piece of highway.

NEWS NOTES

Constable Ellis and Magistrate Jensen were here on Tuesday on official business.

Read the list of special clubbing offers in this week's paper. Here is a chance to get your winter reading for less, and it comes just at a time when most subscriptions are running out. Read it over carefully.

Mutual opening socials in the two Raymond wards are being held next Tuesday evening, the First Ward meeting in the Opera House and the Second Ward in the Church House. Good programs with refreshments and dancing have been promised in each ward. 8 p.m. is the starting time.

WHEAT

Smiles with promise the young green wheat,

Under a sky of tender blue—
Whispering hopes of a harvest great;

Of it has it promised, and failed us, too.

The careless ones can never know

The hopes and the dreams,
The black defeat

The labor, the prayers and the bitter tears

That lie in the loaf of bread they eat.

The sunrise beams on the fresh green grain

That glows and gleams with emerald flash;

The sunset bleeds for a blasted field,

Dead of the hail or the wind's hot lash.

Agonized women; disheartened men;

Aeres shrivelling in the heat,
Shall all their labors be in vain

Sometimes I feel that I hate the wheat!

The long, hot days with their weary watch

For the rods of the silver, slanting rain;

That wand that touches the thirsty wheat

And changes it to the golden grain.

The golden grain, and the watch is done!

With the harvest song comes the knowledge sweet,

Of toil's reward and the hard fight won,

And the world shall have it's bread to eat!

—Nell Lewis Woods.

Wedding Bells

FLEXHAUG — ERICKSON

The marriage was solemnized in Lethbridge on Tuesday, September 5th, at 3:30 p.m. at the home of bishop C.F. Steele, of Miss Evelyn Eva Erickson, oldest daughter of Mr. and Mrs. L.M. Erickson of Raymond, and Leonard Adolph Flexhaug, also of Raymond.

The ceremony was witnessed by the parents of the bride and the father and sister Gladys of the groom. The young couple will make their home in Raymond and they have the best wishes of a host of friends for a long and happy married life. The groom is at present in Calgary arranging to join to navy, for which appointment he signed up last fall, and has just now been called to the colors. Mrs. Flexhaug will continue to reside with her parents for the present at least.

Glimpses Of The War

The ghastliness of the present conflict asserted itself Sunday when just a few hours after England declared war, a submarine torpedoed the S.S. Athenia with 1,347 passengers aboard, and then shot two shells at her, one taking away the main mast. Most of the passengers were saved, but last reports gave 128 unaccounted for.

The Athenia was carrying refugees from the war zone back to Canada and the United States, had no convoy and had left port before the announcement of war. She was sunk with out any warning at all and officials believe the first shell which struck her was aimed at her radio room to prevent sending any calls for help.

Several freighting ships of both English and German ports have been sunk, but in most cases the crews have been taken off before the vessel has been doomed to Davy Jones locker.

With German forces concentrating on the Polish corridor and Warsaw, French and British troops are moving in against the Siegfried line and have pierced these defences and moved into German territory in many places on a 100 mile front. Along with these attacks by the troops the air forces of both countries have united and are directing their bombing raids on the Saar Valley and other centres or arms and ammunition for the German forces. The western front attack by the Allied forces is just getting organized as troops continue to arrive, and its full weight is not felt as yet.

German troops have the Polish troops practically bottled up at one or two points on the Corridor and their battalions are making advances toward Warsaw where they are being met with stubborn resistance by Poles.

Your Choice Magazine For Less

We are happy to again offer this is not the case. Your subscription will be extended for a full year on any magazine or periodical listed.

Secondly, the prices are cut to the bone on practically all the offers, so that you are not paying any big commission to subscription agents for this work. If it gives you the opportunity of adding a paper or two or an extra couple of magazines to your winter reading, you can still do this at about the cost of one or two periodicals subscribed for in the usual way. And in the list you will find reading for dad, mother, and the boys and girls, from those old enough to read up to the oldest one in the family.

Will you help us by showing this advertisement to you, next door neighbor. It is for new as well as old subscribers, and we feel sure some of them will appreciate this information. Turn now to the ad. yourself and see the money saving values that are offered and plan to take advantage of them. There is no time limit on the offer, and so far as we know it may be withdrawn any time, although we do not look for this. However, read it, and see if it doesn't interest you while the matter is fresh on your mind.

Bishop Levi Harker Passes

Police Check On Reckless Drivers

War on the reckless driver has been declared by the R.C.M.P. With main highway surfacing extended in various parts of the province, there has been an increased tendency to speed, thus aggravating the traffic problems.

Now according to officials of the Alberta Motor Association, police are taking definite action to curb dangerous driving. Recently there have been many reports of police also checking up cars which were violating the law through not having proper head or tail-lights, or were contravening regulations in other respects.

Safety on the highways is strongly advocated by the A.M.A., which has given full support to local efforts designed to lower the accident toll in this province.

In the interests of all who use the main highways with full regard to the requirements of safety, the move to stamp out reckless and dangerous driving in this province will receive the general support of all fair-minded citizens.

Temple Opens Wednesday Next

The Alberta Temple will open for the year 1939-40 on Tuesday next, with baptism; that day and the regular ordinance work starting Wednesday, the first meeting at 9 a.m. Last year 3 sessions were held on Wednesday and two on Thursday, and while no announcement has been made it is likely that the same procedure will be followed again this year.

NEWS NOTES

Bud Anderson of Tyrell's Lake spent the holiday week-end with David Wing.

S.B. Williams is digging a basement for his house and will have the house over it before many days now.

Mr. and Mrs. C.R. Wing and family motored over Logan Pass and back Monday, enjoying the scenic beauties of this drive.

A. Hinkley, who has owned the Fred Heppner home has just finished weathering it and has added greatly to its appearance.

A.C. Grey, Provincial Police Inspector, was at the High School Tuesday and found some defective flies which will have to be replaced before firing for winter commences.

T. D. Mohan, 42, Secretary Treasurer of the Warner Municipality, passed away in the Lethbridge Hospital Tuesday morning from pneumonia following an illness from a weak heart. He leaves a wife and child and several brothers and sisters to mourn his passing. Funeral services are being held Friday in Warner.

A wire received here Thursday informed the C.R. Wing family that Elder Guy Alexander was still in Switzerland and that their missionary work was going on. There was some apprehension as to his safety following the torpedoing of the Athenia, as it was reported that a crowd of missionaries had sailed for home on that ship.

Death removed an honored and beloved pioneer of Southern Alberta Tuesday morning in the passing in his 74th year of Levi Harker, of Magrath, at the time of his death a patriarch of the Taylor Stake of Zion and a man loved and respected by all who knew him.

He had spent 47 years of his life in Southern Alberta, and drove the team for the first furrow that was plowed in the old A.R. and I. canal which canal waters Magrath, Raymond and Stirling. Pres. C.O. Card held the plow for this start. Deceased was one of the very first settlers in Magrath, was chosen its first bishop and served in that position for 32 years. He was a pioneer sheep man and was Vice-President of the Canadian Co-operative Wool Growers several years and was always a staunch supporter of this organization. He had been in various businesses and operated a butcher shop in Magrath until a year or two ago.

His wife pre-deceased him a year ago, and he had been ill and suffering for some months, so that death came as a relief to him. During the last years of his life he performed a great deal of Temple work being there nearly every week when his health and the weather would permit. The Stake has lost a wise counselor and a great man. Funeral services are being held today in the Magrath First Ward.

Basket ball season is almost with us. How many championships and cups this season boys?

Gordon Brewerton of Cardston was a Raymond visitor with his family Sunday afternoon and was here on business again Wednesday.

Jack Hevey's car was struck and the side and one fender badly bent when struck by a truck while the car was standing still on the road. The truck was not steering properly and hit the car, despite all the efforts of the driver to control it. Luckily no one was injured in the crash.

Local Safeway Store Sold

The ownership of the local Safeway Store passed into the hands of an independent operator this week, when on Wednesday, W. Wilde of Calgary bought the stock on hand, and the transfer was made when W.J. Kraft, District Supervisor and other Safeway officials were here.

Mr. Wilde has had years of experience in the mercantile business, especially with fruits being Manager of several fruit departments for wholesale grocery companies in Canada. He plans to operate on the cash and carry plan and will keep the same fresh stock and provide the same service that has characterized the Safeway business in Raymond.

For the present P.D. Bennett who has been manager of the Safeway Store is assisting until the transfers due to the change in ownership have been made. It is likely that "Benny" will remain with Safeways and will be given a store in some other territory. No definite announcement has been made as yet.

We welcome Mr. Wilde to the business fraternity of the town and wish him success in the operation of his store here. More information will be given later.

POULTRY FEEDING

At this Station the early hatched pullets are now being brot into the laying houses in preparation for winter production and it is quite possible that a number of poultry producers will be at the same stage of the poultry year. This is a rather critical period for the pullets as they are being taken from unlimited range where they have had a full dose of Southern Alberta sunshine, alfalfa and lots of exercise. When they are placed in the houses they are cut off from the direct sunshine they are limited in their exercise and have no longer access to green feed. A somewhat similar experience is the lot of all birds later in the season, even for those which are normally not confined during the period of the year when the weather is not severe.

Therefore, it behooves the poultry producer to pay special attention to the feeding and management of the birds at this time of the year if the birds are to continue in good health and come into normal production which can be sustained throughout the year. This is not as difficult as it may

seem and no trouble is experienced in this respect at the Station. For the sake of economy the undesirable individuals are culled out when the birds are brought from the range. This culling is on the basis of standard disqualifications, constitutional weaknesses or any abnormalities which may have developed during the growing period. The birds are then placed in houses which have been thoroughly cleaned and whitewashed and after being given this newly prepared residence they are not again permitted out of doors.

Under these confined conditions the birds naturally must obtain all their nutrients from the feed placed before them as they can no longer obtain part of their diet by chasing grass longer a secret formula available to only the initiated few, but is common property and available to any one who may desire to use it. In addition to such feeds as the cereal grains and milk which are available, green feed should be provided especially during the period immediately after the birds are confined. This prevents too abrupt a change in the ration and tides them over the period

of readjustment. In addition it becomes necessary to provide cod liver oil or some similar fish oil to the ration in order that the vitamins, especially A and D, which have been liberally supplied by the sunshine and green growth, may not be lacking in the diet. Good biologically tested oils of high vitamin content are readily available and if added to the ration at from 1 to 2 per cent will do much to maintain the health of the birds and keep them in the bodily vigor which is essential to the proper functioning of the reproductive organs and consequent high egg production. Proper feed is not only the essence of life but it must be provided in sufficient amounts to not only maintain life but also to provide the extra nutrients which are required for the production of eggs.

Any one wishing detailed information regarding poultry rations and feeding is invited to communicate with the Experimental Station, Lethbridge, Alberta.

Edmonton Letter

(By T. B. Windross)

Edmonton, Alta., Alberta is at war this week, fighting for democracy, individual freedom and for the land itself, just as every other part of Canada and every part of the empire.

"I feel confident that Canada will do her part," said Hon. J. C. Bowen, lieutenant-governor of Alberta. "It is deplorable that war is not to be avoided in this day and age, after all the efforts that have been made to bring about international peace, but it seems that there is no alternative."

The Hon. Mr. Bowen is a veteran of the Great War, having served in France as a chaplain from 1915 to 1918.

The Alberta cabinet was to meet during this week to talk about plans for the civil safeguarding of the province. Premier William Aberhart returned to Edmonton Friday night after a couple of weeks of holiday at Vancouver and left there later to spend the week-end at Calgary, returning again to Edmonton Monday.

"I am much distressed at the turn of events," he said during his first stop at the capital. "I see no justification of Hitler's part for his attitude or his actions. I feel that the people of Alberta stand loyal to the British cause of democracy."

National authorities called for an end to partizan political strife and class versus class agitation so that all Canada may stand united at Britain's side in the defence of all that is held dear in this country, against the one war-monger who forces war upon the world and threatens life and civilization itself.

Even on the brink of catastrophic war, however, political party propaganda could not be scrapped entirely in Alberta.

Hon. Lucien Maynard, the province's minister of municipal affairs, published in his own newspaper a weird and wonderful statement that "international financiers" stand behind the Soviet government and have instructed the Soviet to step in and seize the ruins after a world war. Mr. Maynard said that they're up to the predictions of Major C. H. Douglas, entirely ignoring the fact that Stalin and his regime have been waging war on "capitalism" and "international finance" much harder than Premier Aberhart and Major Douglas have done, and for 20 years.

Mr. Maynard also, for his own purpose, used again his favorite misquotation from the Encyclopaedia Britannica, twisting its true meaning to make it say the opposite: "Banks create credit. They create means of payment out of nothing."

Such statements in ordinary times deceive some people and so play a part in internal politics, but do no harm that cannot be remedied at the polls on the next election day. In war-time, however, the threat to spread such deceit as to cause disunity and, as a result, military defeat and invasion which cannot be remedied.

The war will cost much in money as well as in other things, and people want to know who is paying. They are themselves. The war was started by one madman, Hitler, who controls absolutely the finances and economics of his country; no one could drive him to war or could dissuade him from it. No "international finance" had any say in the matter. It is also a fact that all of the countries involved have their own government-owned or controlled banks to pay for the war: The Reichsbank, the Bank of England, the Bank of France, the Bank of Canada, etc. The governments thus control absolutely the financing of war, and their own monetary and economic systems including expansion and contraction of currency.

Routine news of the week in Alberta was dwarfed by world events and even by Alberta's preparation for war, including enlistment of many citizens of the province in the Canadian fighting services and the mobilization of many units. Of high importance, however, was the reminder that farmers who deliver their wheat at the 70-cent basic pegged price will receive in addition, the full amount of the difference to make up the market value.

NEWS NOTES

The bus was more than an hour late Wednesday morning, the rain and wet roads slowing down travel a great deal.

Henry Kendall has part of the foundation in for his new home, and is putting all his spare time in on it. He has been decidedly busy this fall.

George Paris, who with his wife and children, visited his parents here during the summer was recently transferred from Olympia, Wash. to the Wenatchee district and made supervisor over fourteen Safeway Stores. A nice promotion for George and we extend congratulations.

Elder Maurice Heninger, son of Mr. and Mrs. W.A. Heninger, arrived home last week after spending something over two years in the Canadian Mission. He reports a very enjoyable mission and his many friends in Raymond are glad to welcome him home again.

Elder Maurice Heninger, recently returned from the Canadian Mission was the speaker at the Second Ward M.I.A. Conjoint Sunday night talking on percent day methods in the mission field. He gave his listeners a very interesting talk. Singing was by the congregation led by Miss Marie O'Brien.

Mrs. Jos. A. Brimm of Downey, Idaho and Mrs. A.J. Nelson and son Donald of Pocatello, Idaho, were guests this week of Mr. and Mrs. J.O.A. Stevenson, and left Thursday afternoon to spend two or three days with the Frank Coffin family in Stirling. The ladies are mother and sister respectively of Mrs. Stevenson.

An announcement in Wednesday night's paper stated that a recruiting station was being opened in Cardston and it was hoped to get 100 volunteers from that district. Several local young men have already offered their services, some in Lethbridge and some in Calgary, but we have not heard what success attended them.

Elders H. Myron Holmes and S.I. May were the speakers at the First Ward Conjoint Sunday night speaking on the subject of the month, "The Increase of Spirituality through Recreation." Richard Young, a new member of the Brewerton family who is visiting here from Salt Lake City spoke briefly. Musical numbers were a vocal by Miss Barbara Brewerton of Cardston and a Ladies' Trio by Mesdames Mariel Terry and Winnie Strong and Miss Dorothy Strong.

The decline of the British pound is working adversely against sales of Canadian wheat to Britain. The lower value of British money adds to the price of wheat laid down at Liverpool.

The students attending school in the High School were given a holiday Wednesday when the rain storm made it too cold to hold school without a fire, and the boiler had to be repaired before any fire could be started in it.

The engagement is announced of Miss Donna Galbraith, sister of Bruce and Garth, to Rich Bennett of Magrath, the wedding to take place on September 14th, at the Alberta Temple. We extend our congratulations to the young couple and wish them much happiness in their married life.

A grass fire over some of the Kircaldy ranch acreage last week burned several sections of good winter feed before it was stopped. Ray and his crew used every kind of machinery on the ranch to battle the flames and save the remainder of the winter feed. This piece of land had not been grazed at all during the summer being saved for winter and the loss is quite heavy.

PREPARATION AND PRESERVATION OF FRUIT JUICES

(Experimental Farm News)

The preparation and preservation of fruit juices is quite a simple matter and is an ideal way to make use of surplus and under sized fruits, writes R.W. Arengo Jones, Division of Horticulture, Central Experimental Farm, Ottawa. Apples, grapes, strawberries, raspberries, cherries, currants and other fruits provide juices which not only are very palatable but have high dietetic value as well, and since fruit juices have taken a definite place in everyday meals, these native Canadian juices form a welcome change from the few now commonly used.

The preparation of apple juice is not advised unless a suitable mill and press are available, since fine milling of the fruit followed by pressure is necessary to effect extraction. Plans for building small presses may be obtained from the Division of Horticulture, Central Experimental Farm, Ottawa.

For home use the preparation of soft-fruit juices is a very simple matter. The fruit, following sorting and cleaning, is heated to about 170-180 degrees F., (if no thermometer is available the fruit will begin to boil around the edge at this temperature) with a little water. Following crushing and thorough mixing the juice is recovered by straining through a jelly then.

bag or by pressing in a small press. The juice should then be placed in jug or crock which is 25 tall and narrow as possible, and left to stand for 24 hours or so in a cool place. This will clear the juice and the clear part may then be poured off the sediment. It may then be bottled "as is" or may be diluted and sweetened to taste and in either case is heated to 180 degrees F., or incipient boiling and filled into bottles, jars or cans at the top temperatures. Each container as it is filled should be sealed and inverted to cool. Tin cans should be sealed, inverted for a few minutes and then cooled in water.

Special instructions are available for those wishing to bottle and can fruit juices for sale, in which case filtration is advisable and the product so made and preserved that it will stay for at least a year.

Certain fruits such as apricots, prunes and peaches are best made into a "squash." In this case the fruit is cooked until soft and then passed thru a fine screen to make it into a puree. To this is added sugar and water and the product bottled or canned.

The Lethbridge Herald put out a special on Sunday just after the declaration of War and the papers were snapped up like hot cakes here when they arrived about 9:30 a.m. Another ex-lowing crushing and thorough mixing the juice is recovered by straining through a jelly then.

For Sale—Five Roomed house and lot. Block east of Broadway. See W. W. Rodeback.

\$39,427,090 IN HOUSING LOANS

National Housing Act loans for July, 26 percent above the volume for June and 62 percent higher than for July last year, are reported today by the Hon. J.L. Ilsley, Acting Minister of Finance. The volume of loans at \$2,771,501, and the number of family housing units financed standing at 866 for the month again establish new records for any month to date.

Aside from the increased volume and number of loans one of the month's outstanding features is the extension of the loaning facilities to borrowers in 22 new communities. This increases the number of communities in which loans have been made to 352, representing approximately four fifths of the urban population of Canada.

A second feature of the month's operations is the continued advance in number of 90 percent loans approved for small single family homes valued at \$2,500 or less. Experience to date already indicates that there are in most centres large groups of modest income workers highly responsive to owning their own homes provided that this can be accomplished within the limited budget of the family. The Dominion's 90 per cent loans requiring only a small down payment and very moderate monthly instalments are fitted to meet this need and a characteristic of operations has been that, when one such loan is approved in any particular community, several applications closely follow the first. In July approval was given 136 of these high percentage loans compared with 110 in June and 77 in May.

The average loan per family unit for the month was \$3,200 but more than 31 percent of the units were actually financed by loans of \$2,500 or less, and ap-

proximately 60 percent were financed by loans of \$3,000 or less. Eighty-seven per cent of the total units were financed by loans at \$4,000 or less.

It is of interest to note that July marks the twelfth month of operations under Part 1 of the National Housing Act which came into operation last August extending and broadening the old Dominion Housing Act. Total loans in this last 12 month period have amounted to \$18,271,600 compared with \$11,302,000 in the 12 month period immediately preceding, and with a total of \$21,156,000 in the 34 months of Dominion Housing Act operations. The number of family housing units financed in the first 12 month period of National Housing Act operations is 5,433, exceeding the total number of units financed Act in the 34 previous months under the Dominion Housing (5,295).

It is obvious said Mr. Ilsley that the increase in activity under the Dominion's housing legislation is one of the important factors in the higher total of residential construction in the last 7 months of 1939. Residential contracts awarded for this period are reported at 31 in each grade.

per cent above last year while National Housing Act approvals are up 45 per cent, and advances under the Home Improvement plan are also approximately 30 per cent higher to date with the trend still upward. Ontario leads all provinces in these loans totalling \$19,333,520 while our own province has a clean sheet no loans being obtained by Alberta citizens.

The Community School north of town about four miles opened for the fall term last week with an enrollment of 21 pupils, with a few more to come in. Miss Phillipa Cook of Lethbridge is of teacher again this year, and the last 7 months of 1939. Res- grades taught are from 1 to 9 although there are not pupils in each grade.
